SOCIETY**

SUMMARY OF AWARDS & DISTINCTIONS

Yorkshire Geological Society
Registered Charity No. 220014
www.yorksgeolsoc.org.uk

To further encourage the continued pursuit and sharing of knowledge of new research and ideas in the various fields of geoscience, the Yorkshire Geological Society presents a series of different awards, medals and distinctions. Awards are generally presented at the Society's Annual General Meeting (AGM).

A summary of the medals and distinctions available from the Yorkshire Geological Society is given below:

- John Phillips medal
- Sorby medal
- Fearnshides Award (replaced Fearnshides Prize in 2016)
- Moore medal
- Bisat Medal
- Honorary membership

The Society maintains a record of recipients for the various medals and distinctions it awards, which is presented on the following pages for each of the different awards, along with a summary of the criteria for the specific award.

If you think that someone deserves recognition as a potential recipient of one of the Yorkshire Geological Society's awards or distinctions, please contact the [President](#) or [General Secretary](#) who will then raise the nomination at the next Council meeting of the Society.

John Phillips Medal (established 1960 by Dr W.S. Bisat)
